

## MOTIP Chain Spray Ultra

Ord.-no.: 000272

### Technical Information

Lubricate the chain and sprockets of your bike, touring bike or electric bike with MOTIP Chain Spray Ultra. The lubricant is extremely suitable in heavy weather conditions like rain. Chain Spray Ultra is a (wet) lubricant with ceramic particles to treat chains and sprockets of bikes. Chain Spray Ultra has a high-viscosity and therefore bonds better when used in wet conditions. Chain Spray Ultra is water repellent, prevents wear and is resistant to all weather conditions. In dry weather conditions, we recommend Chain Spray Sport.

#### Quality & properties

- Very low friction factor for minimal resistance
- Outstanding lubricating properties at heavy load
- Contains ceramic particles
- Prevents wear
- Reduces the adhesion of dirt
- Resistant to weather influences
- Water-repellent
- Directed jetspray
- 360° valve

#### Physical & chemical data

- Base: Synthetic oil with ceramic particles
- Colourname: transparent white
- Smell: Characteristic
- Surfaces: Chain and gear wheels (Bike)
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 3500/20 bar
- Relative density: 0.88 g/ml
- Storage stability: 1.5 y
- Content: 400 ML

#### How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature.
- Best processing temperature 5 to 30°C.
- Before use, shake the aerosol.
- Clean the chain and the gear wheels. Apply the chain spray in two thin layers.
- For an optimum result, slowly rotate the chain after treatment.

#### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

#### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

#### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline +31 (0) 561 69 44 00 from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of August 17, 2022 – This release replaces all eventually earlier issued versions.
