

MOTIP Tyre Shine

Ord.-no.: 000711

Technical Information

Let your tyres shine again with MOTIP Tyre Shine; the tyres of your car will look new again. Tyre Shine contains silicones and gives a glossy result. MOTIP Tyre Shine protects against the weather and is pH-neutral.

Quality & properties

- Protects against weather influences
- Gives a glossy result
- pH-neutral
- Contains silicones
- User-friendly

Physical & chemical data

- Base: High viscous silicone oil
- Colourname: transparent
- Smell: Characteristic
- Surfaces: Car tyres
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 3500/20 bar
- Storage stability: 5 y
- Content: 600 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol.
- The surface should be clean and dry. Avoid contact with the brake parts.
- Apply Tyre Shine in a thin, equal layer on the flanks of the tyre.
- Not suitable for two-wheelers.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline +31 (0) 561 69 44 00 from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of June 10, 2022 – This release replaces all eventually earlier issued versions.
